License for business operations

CERTIFICATE/ LICENSE

Certificate of Conformity to STB ISO 9001 - 2009

Certificate of Conformity to STB 18001-2009

TYPES OF PRODUCTION

- ▣ Production of electrical products for household appliances
- ▣ Production of electrical wire bundles for household appliances and automotive vehicles (dimensional cutting, marking, and crimping of wires, wire bundling)
- ▣ Production of springs
- ▣ Production of automotive components (electronic liquid level sensors - DHS, transducers - PRP-1M)
- ▣ Electroplating (passivating, galvanizing, phosphating by impregnation with oil)
- ▣ Plastic molding
- ▣ Remote control cables
- ▣ Paper clips
- ▣ Orthopedic mattresses
- ▣ Sewing products

Vitok

MAJOR CUSTOMERS

ATLANT, PLC

Supply of electrical products for home appliances and electric wire bundles for the production of refrigerators, freezers and washing machines. Switching units for washing machines. Plastic products. Springs

ATLANT

Vitok

MAJOR CUSTOMERS

Minsk Automobile Plant
Supply of electronic liquid level sensors. Conductor bun

Vitok

MAJOR CUSTOMERS

Minsk Tractor Works

Supply of electronic liquid level sensors and temperature sensors. Springs

Vitok

**БЕЛАЗ
BELAZ**

MAJOR CUSTOMERS

**BELAZ, JSC is a management company of BELAZ-
HOLDING**

Supply of electronic liquid level sensors. Springs

Vitok

MAJOR CUSTOMERS

ГОМСЕЛЬМАШ

GOMSELMASH, JSC

Supply of electronic liquid level sensor.
Transducers

Vitok

QUALITY CONTROL

Vitok keeps the quality of its output under constant check

**SQS 02/07 SCHÄFER laboratory for the
analysis of crimped connections**

**MECAL
SMST 2000 Crimp Pull Test Gauge
SMST 2000 MECALL**

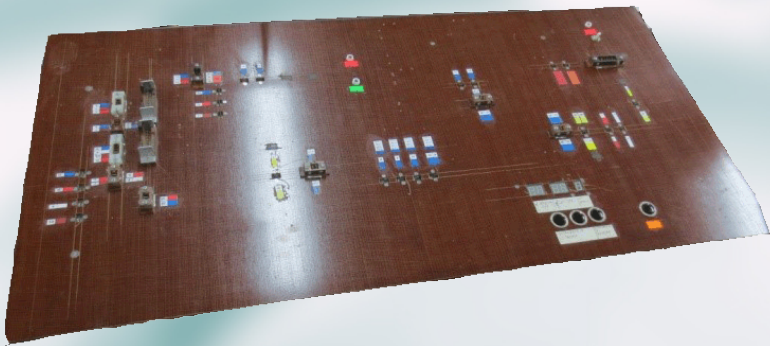

Vitok

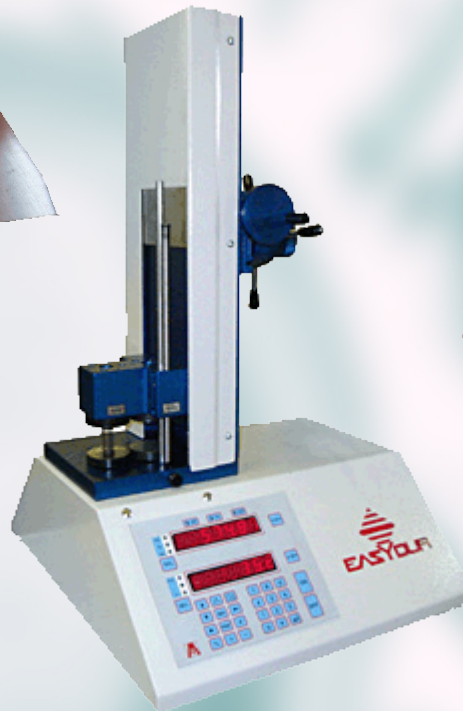

QUALITY CONTROL

Wire bundle tester

Spring rate tester

Circuit continuity tester

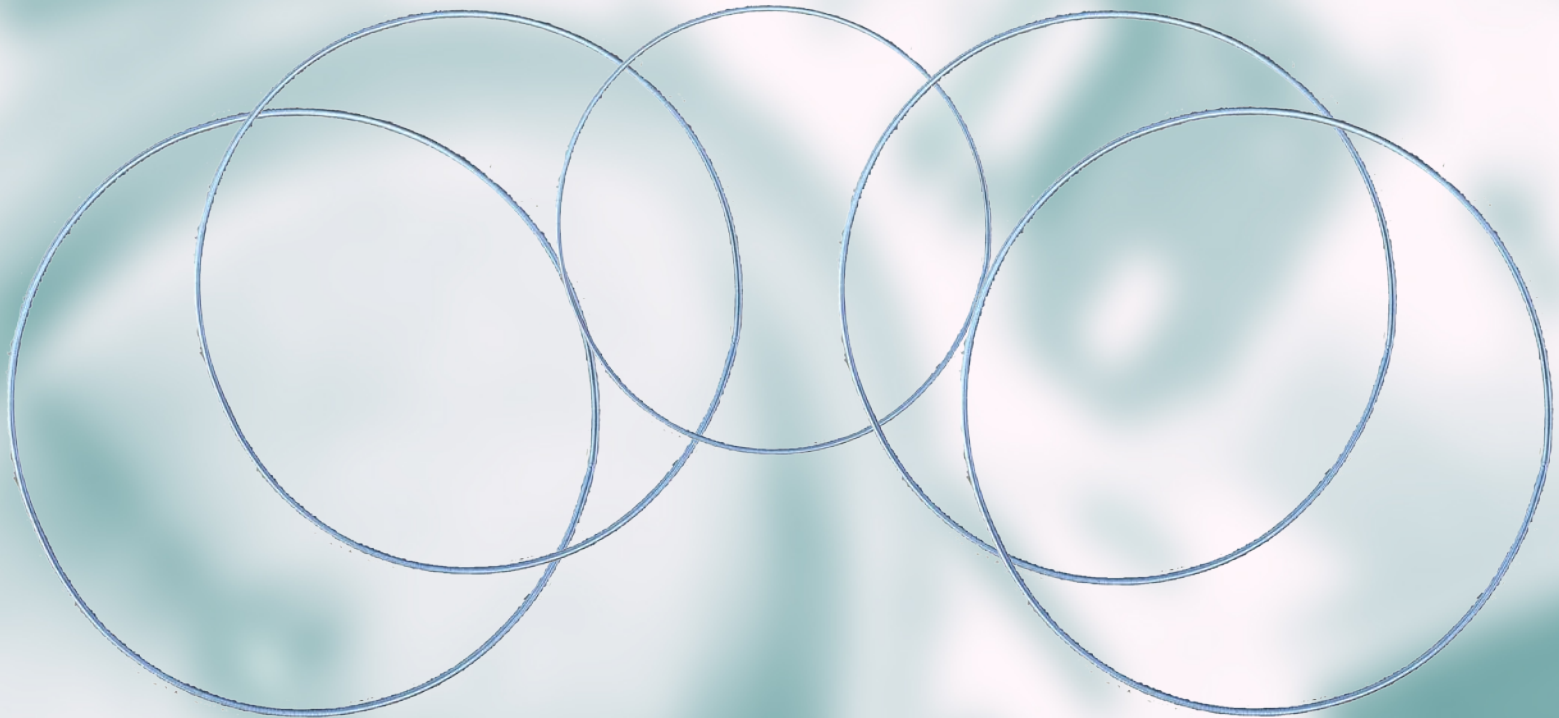

Vitok

SPRINGS

SPRINGS FOR REINFORCED RUBBER SLEEVES. Made on special high-performance spring coiling machines. Special automatic machines are used for ring coiling. Special instrumentation is used for force and geometrical parameters.

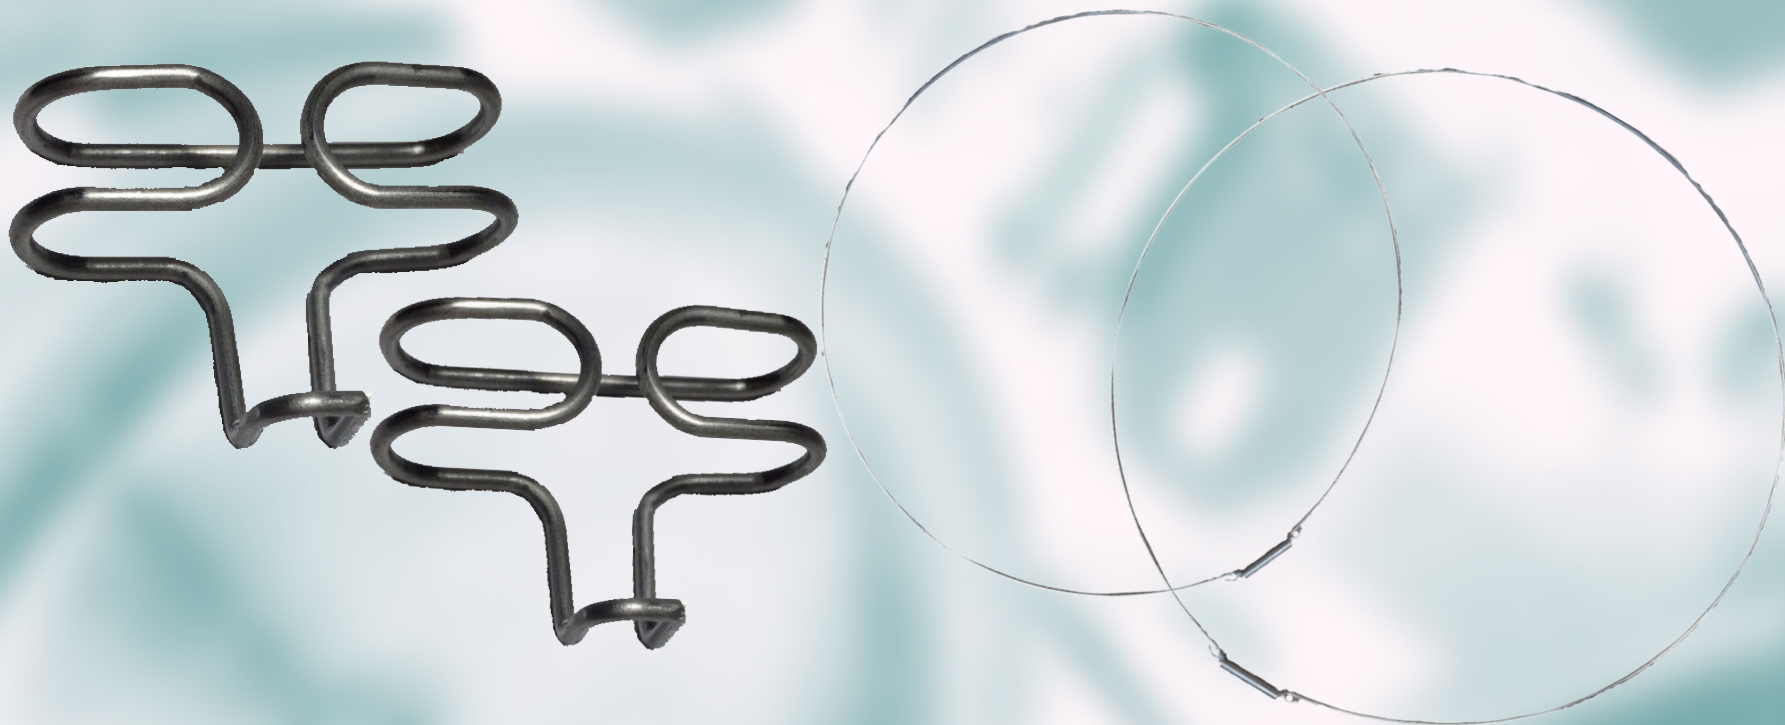

Vitok

SPRINGS

SPECIAL SPRING WITH HOOK-ENDS OF DIFFERENT SHAPE TORSION SPRINGS

Our products is subjected to anticorrosion treatment by galvanizing or chemical phosphating, passivating, and slushing

Vitok

SPRINGS

TORSION SPRINGS are manufactured on high-performance spring coiling machines with hook folding. Special instrumentation is used for force and geometrical parameters..

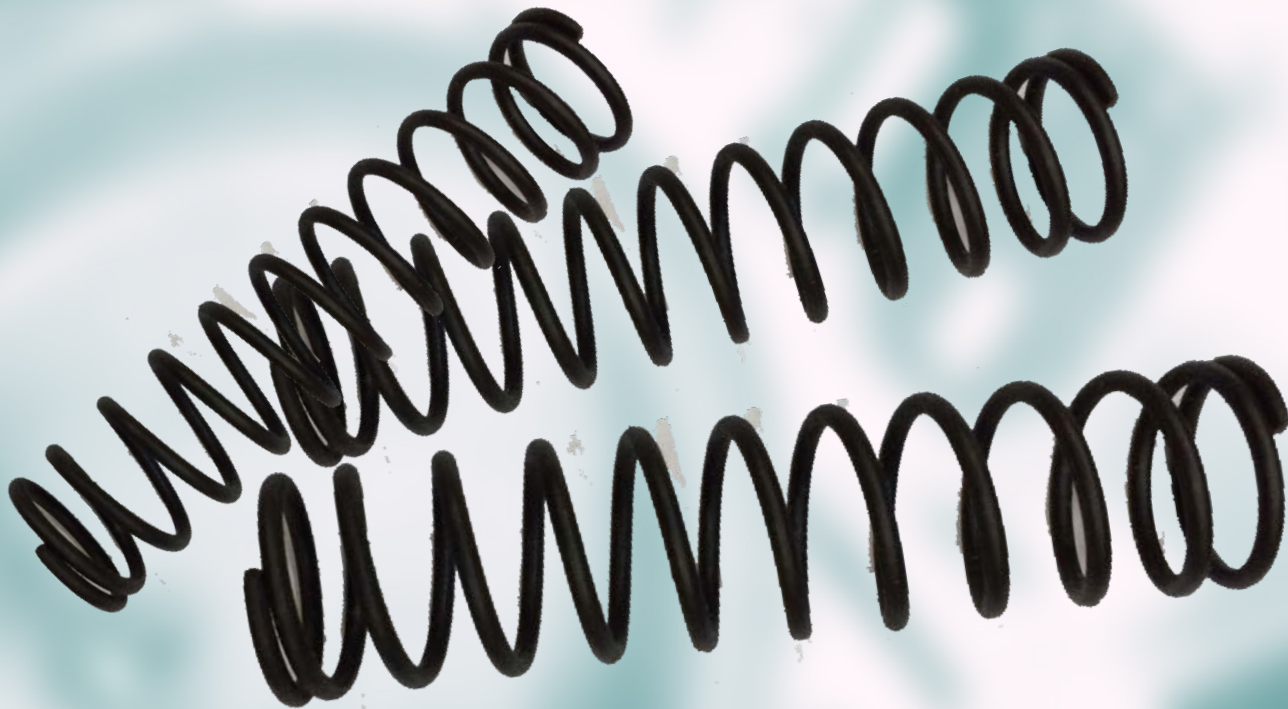

Vitok

SPRINGS

COMPRESSION SPRINGS are manufactured on high-performance spring coiling machines followed by grinding the ends on special machines. Special instrumentation is used for force and geometrical parameters..

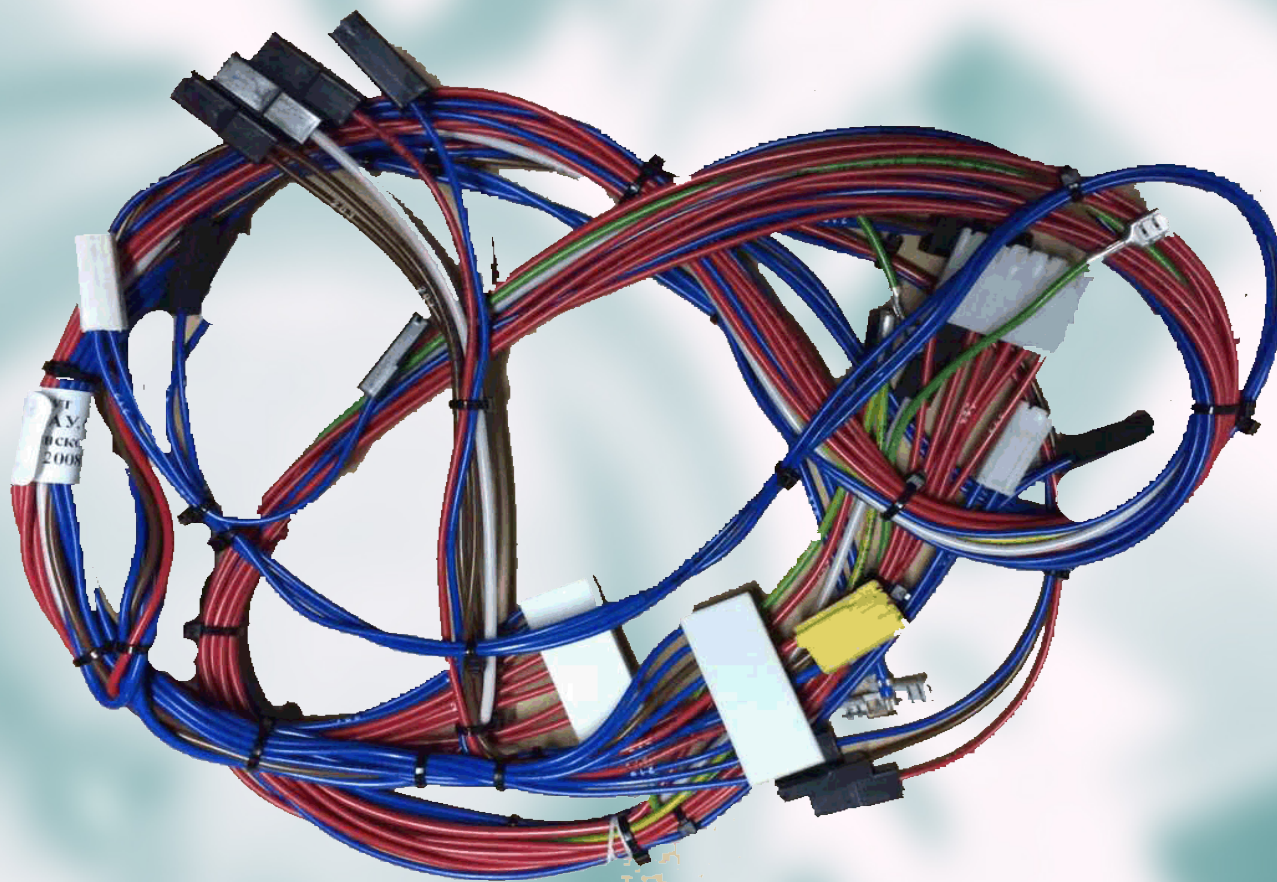

Vitok

HARNESSES

Wire harnesses for household appliances

The enterprise produces harnesses for ATLANT refrigerators and washers of wires and stranded cords (cables) of 1.5 mm² in section and tips of different type

Vitok

HARNESSES

Wire harnesses for automotive electric equipment

The enterprise produces circuit and power harnesses of varying complexity of wires ranging from 0.5 to 70 mm² and with tips from world leading producers for conveyors at MAZ, BOBRUYSKAGROMASH, and the Mozyr Machine-Building Plant as well as for repair purposes.

Vitok

DHS Liquid Level Sensors

DHS Series Liquid Level Sensors

Designed to provide a signal on the presence of liquid at hydraulic system test point to any display unit or through matching circuit to actuators, including logic elements and issue an overtemperature ($88 \pm 3^{\circ}\text{C}$) alarm for liquid under check.

Vitok

PRP Transducers

PRP Transducers

Designed to convert mechanical rotation of an object into electrical signals whose frequency is proportional to rotational frequency of the object.

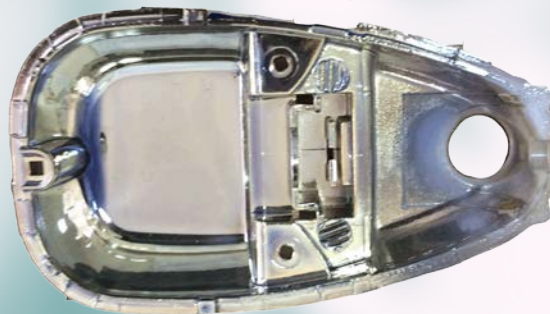

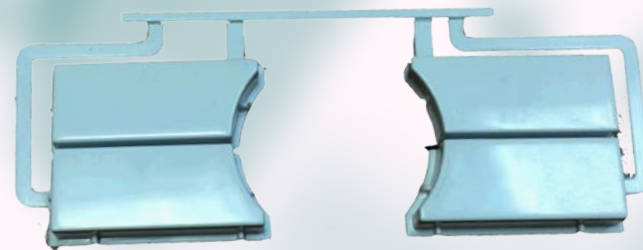

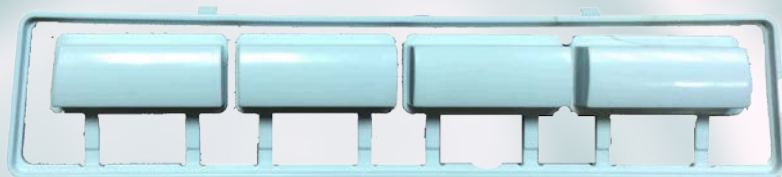

Vitok

Plastic Molding

The enterprise produces molded articles of plastics by using injection molding machines such as ARBURG, DEMAG, ENGEL, KUASY, B3ST machines

Vitok

Remote control cables (RCC)

The unitary enterprise "Vitok" has the necessary technologies, technical capabilities and production facilities for organizing the production of remote control cables for a wide range of applications. The production of the RCC is carried out in accordance with TU BY 100194961.066-2016 when using various specialized equipment and rigging.

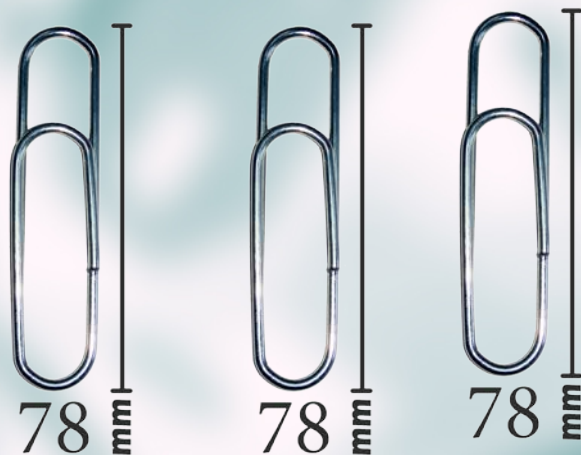

Vitok

Paper clips

Paper clips are made of steel zinc-coated wire of general purpose in accordance with GOST 3282 (State standart) with a diameter of $0.8 + 1.0$ mm. It is a specially bent piece of wire about 3 cm long. Galvanized clips Art. No. SK27100TS, TU BY 100194961.064-2014. Clerical clips are made of steel wire with galvanized treatment in the electroplating shop of the enterprise. Galvanized paper clips Art. N°TS785TS, TU BY 100194961.064-2017.

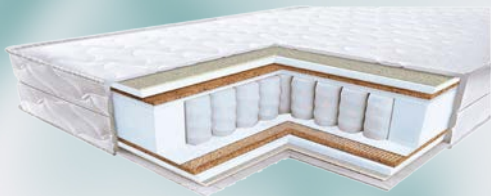

Vitok

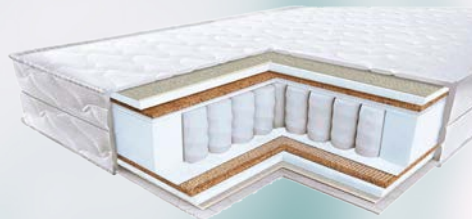

Orthopedic mattresses

Mattresses - frameless, solid, bilateral, with independent spring blocks, of constant section, differ in overall dimensions with the possibility of forming the shape and elasticity of soft elements. Currently, serial production of mattresses of the "Comfort-1", "Comfort-2", "Optima-standard" series (Appendix 1) is established. The demand has been studied, new models have been developed and are ready for release: Comfort-season, Comfort-season 2, Comfort-summer, Elite-standard. There is the possibility of manufacturing mattresses for individual projects of the customer

Sewing products

Vitok

Strategy for 2018

- ▣ Investments in production
- ▣ Expansion of production

- ▣ Installation of a new and modern equipment
- ▣ Improvement of the quality of products (continuously)

- ▣ Updating the range of products

Vitok

CONTACTS

- ▣ Location: Republic of Belarus, Minsk, ul. M. Gusovskogo, 20
- ▣ Phone/Fax: +375 17 204 68 65
